Again, counsel read Ordinance 2017-03 for the record.

Motion by Mr. Kavanaugh to accept and adopt the second reading of Ordinance 2017-03.

Second by Mrs. Krieger.

Discussion: Mrs. McGuire expressed her opposition to approving the ordinance. She believes that this is setting the wrong precedent for the town. The issue of allowing a

single house to be excluded from a historic district could open the doors for many similar requests in the future. It was mentioned that there is very little that is original on the Marx home, although, the historic architectural style is maintained.

STANDING COMMITTEES

- Finance ~ Mrs. McGuire, Mrs. Krieger
-The finance committee will meet on Tuesday prior to the second council meeting of each month. This should allow for the development of a better budget and keep better control of the current spending.
- Personnel ~ Mrs. Hughes, Mrs. Aurand
-Mr. Key is requesting an increase at the WWTF in the amount of \$2.66 per hour for each employee. This would be a wage re-alignment adjustment. The WWTF has been losing a number of personnel due to the low wages being paid. This puts them in a constant state of training new employees. After research conducted by Mr. Key, it was determined that this wage re-alignment is in order to provide comparable wage rates with other facilities throughout the area.
A motion by Mrs. Hughes to approve the re-alignment adjustment for the WWTF at the rate of \$2.66 per hour for all employees. The increase will be effective with the next payroll.
Second by Mrs. McGuire.
Discussion: There were questions concerning the increase for the Utility office workers. In some cases, this would amount to a 17% increase or more in the hourly rate. Did Mr. Key take into consideration clerical workers when making the recommendation to be across the board for all employees. At the WWTF there is one clerical worker and this person should also receive the \$2.66 per hour. It is believed that the Utility office should conduct similar research to determine how much of an increase should be offered the Utility office employees. It was also mentioned that the Civil Town employees be considered for an increase as well. The town manager and elected officials will be exempt from any increases.
Vote: Ayes 5; Nays 0

-It was decided that the Utility office needs to perform the same type of research as performed by Mr. Key. Any increases should go through the same path at the increases for the WWTF with increases approved by the Utility commission, the finance committee and then to council for approval.
